Subject: Relicensing - Lake issues

Frank -

In the last relicensing mtg, you asked for a review of the "issues of concern" contained in the minutes of the first mtg. I have the following comments:

1. Under Lake Issues, chg Noise regulations to "Noise/speed regulations and enforcement".
2. Under Lake Issues, chg "sediment" to "Sediment/siltation study".
3. Under Lake Issues, add "Waste disposal/enforcement".
4. Under Lake Issues, chg "Debris removal" to "Debris prevention, removal and disposal".
5. Under Water Q/Q, add
  - a. Nutrients
  - b. Fecal coliform
  - c. Other contaminants
6. Under Other, add
  - a. How should the cost of maintaining the health of the Lake be shared by the stakeholders.

Stan Smith
